

Left Fork

Left Fork's Approach

From Route 6, take Highway 10 past Huntington into Orangeville. Veer right onto Highway 29 following signs for Joe's Valley Reservoir. Once you pass the National Forest Sign, you are in the Left Fork. All mileage is from the National Forest sign.

Left Fork's Areas

1. Raiden

2. Moment of Truth

3. Damn Boulders

The first known development of this area was by Anthony Chertudi, Scott Hall, Griffin Whiteside, Chad Parkinson, Joe Meiners and Kyle O'meara, but some of it had probably been developed before. A great account of the development can be found on the climbingcollective.com.

4. Dreamfall

5. Riverside

6. Powerline Boulder

A large boulder with the classic highball *The Wind Below* on it.

7. Level 7

Two distinct areas, one up the hill and one literally on the river, sharing a small parking spot on the left.

8. 8 Mile Gully

Home to a handful of quality problems

9. Worst Case Scenario

A lone boulder with a lone problem on it, but one of the best of the grade in Joe's.

10. Zodiac

Only having two problems and having to cross the river makes this area seldom visited. But, if you have a plan...
