

# Powerline Boulder

A large boulder with the classic highball The Wind Below on it.

## Powerline Boulder's Approach

Park the same as Worst Case Scenario (the big parking on the left, 2 miles from the National Park sign). walk back down canyon about .1 miles to the second set of reflector posts. Hike up the hill here across the road.

## Powerline Boulder's Topo

## Powerline Boulder's Problems

### 1. Man From the Past V11

Climb the black face starting on two underclings and finish on the arete.

Angle      Height

### 2. Mask of God V13

Same start as Man From the Past, but head right after the first few moves into some gastons.

First Ascent: Pete Lowe

Angle      Height

### 3. Project ?

### 4. The Wind Below V6

Classic highball. Big move at the beginning leads to thinner climbing at the top.

First Ascent: Jason Kehl

Angle      Height
