

# Roadside Boulder

The roadside boulder is a great place to warm up on some short problems. While not of the best quality it is definitely worth it to check out. Also a great intro for those who are wet behind the ears in regards to outdoor bouldering.

## Roadside Boulder's Approach

From the Closet/Chip&Dale(referred to as Planet of the Apes) walk down the dirt road about 50 yards going south and the boulder should be on the left side of the road.
