

Getaway Boulders

A delightful grotto of quality, 15ft high boulders found partially hidden in the forest at the foot of a hill. There is a high concentration of hard problems (>V5) and not so many warm-ups!

ATTN: THE LANDOWNER HAS CONTACTED WIKIBOULDER AND HAS ASKED THAT PEOPLE STOP CLIMBING HERE. PLEASE DON'T CLIMB AT THIS AREA OR AT THE GETAWAY SLABS.

Getaway Boulders's Approach

From main parking area, head on slabs north parallel to gerle creek on left, down slope. Cross creek below a small waterfall and continue through a small patch of forest to another slab area. Walk for 5 mins past small boulders until you can see some larger rocks on edge of woods: a rough trail leads the way to this area

Getaway Boulders's Topo

Getaway Boulders's Problems

1. Getaway Crack

V0

Short corner crack to jug ledge.

2. Getaway Traverse

V3

Start on Getaway Crack and traverse right into V1 stand start on hollow plate.
